# Our Genius

Our Genius lies in our ability to integrate ergonomics into your day to day operations seamlessly using a systematic approach. Ergonomics influences how we work, our comfort, health, and productivity. Through analysis, training, and consultation we help you build your ergo process for maximum ROI in these key areas.

Genius Model® The Models Method

# Ergonomic Evaluation Services

Our expert team offers both remote and onsite evaluations tailored to office, lab, and industrial settings. From quick ergo coaching to comprehensive evaluations, we focus on wellness, prevention, workers' comp management, reasonable accommodation, and more.

# Our Evidence-Based Evaluations

Our evidence-based office and industrial ergonomic evaluations and reports ensure every client receives the best ergonomic advice and solutions, tailored to their unique needs and challenges.

[WWW.WORKSITEINTERNATIONAL.COM](http://WWW.WORKSITEINTERNATIONAL.COM)

# Ergonomics Process Systems

We offer our clients a macroergonomics approach maximizing employee well-being and organizational health. Our ergo process emphasizes the importance of ergonomics at both the micro and macro levels, ensuring a comprehensive participatory approach for exceptional ROI.

# Ergonomics Training Programs

Our Ergonomics Training Academy offers both live and e-learning corporate and professional certificate course.

From basic office ergonomics to advanced chair assessment and office evaluation skills, we provide a range of courses to educate and inspire your teams.
